- Income from sales amounted to 8,518 thousand euros, evidencing an increase of 16% in comparison to the same period in the prior year (2022: 7,366 thousand euros), which can be attributed to growth in warehousing income. This increase can be attributed to the significant growth in the cost of energy (50%), utilities/levies (30%), and maintenance and certification costs (48%).
- Financial costs have increased due to an increase in interest charges as a result of the short-term debt financing assumed during the back end of 2022. The Russian-Ukrainian crisis and impact of sanctions imposed against Russia on the business

The Russian-Ukrainian crisis contributed positively to the Company's operations as a result of the disruption noted across global logistics flow chains. Namely, intensified congestion was noted in the northern ports with the Black Sea being positioned close to the warzone. This resulted in a heightened increase in vessel insurance costs which further contributed to the growth in overall costs of logistics across that route, coupled with already prominent congestion present. Consequently, the aforementioned challenges redirected additional business by means of driving additional throughput to the Company. This can be seen when comparing current period throughput to that in the period prior to the crisis - an increase of 51% in throughput was noted when comparing quarter 1 of 2023 to quarter 1 of 2021. Although a 7% decrease in overall throughput was noted in quarter 1 of 2023 as comapred to the same period in the prior year, operating income exluding trading income evidences a 20% growth when compared to quarter 1 of 2022.

Luka Ploče Group MANAGEMENT REPORT

for the 1st quarter of 2023

The Russian-Ukrainian crisis and impact of sanctions imposed against Russia on the business (continued)

The Group does not execute any financial transactions with any Russian financial institution and does not have financial exposure to same.

While the impact of the sanctions against Russia demonstrated a positive impact on the income from port activities, a significant increase in costs relating to raw materials and supplies was noted, together with marked volatility in capital markets (e.g. increased operating costs, challenges in the supply and demand chain, high inflation, etc.).

The Company and the Group have assessed the associated risks arising from the aforementioned as follows:

- Increase in the cost of transport, raw materials and supplies, energy and fuel (when compared to the prior year), which is further transferred to other costs.
- Given the significant increase in costs and compacted by logistical challenges faced, the Company has
 noted a significant increase in requests for advance payments by suppliers while the delivery time for
 receipt of goods from suppliers has been prolonged. Consequently, the Company has had to
 proactively plan and manage its financial resources to meet known current needs and unforeseen
 circumstances, including the need for increased advanced payments. Taking all this into account, the
 Company's liquidity was impacted which gave rise to the need for additional financing.

The Company and Group actively participate in the market in order to better position itself in these circumstances.

Trade receivables and the Group's liquidity outlook

Trade receivables as at 31 March 2023 amounted to **22.7 million euros**, which evidences an decrease of **6%** when compared to the same period in the prior year. **92%** of the total trade receiveables are **not yet due**, of which **77%** relate to **trading goods not yet dispatched**.

Cash and cash equivalents **increased** by **183**% from 5,941 thousand euro on 31 December 2022 to **16,792 thousand euro** on 31 March 2023. **Irrevocable letters of credit** are presented in the balance sheet as "other financial assets". **Irrevocable letters of credit** cannot be unconditionally used for everyday transactions (readily convertible), and as such do not meet the definition of cash equivalents according to IAS 7. These amounted to **3,206 thousand euro** on 31 March 2023, and evidence a **decrease** of **77**% when compared to 31 December 2022. This decrease is attributed to the realisation of trading goods purchased during quarter 1 of 2023 amounting to 13,604 thousand euro. On 31 March 2023, the letters of credit recognised in the balance sheet relate fully to the advance on the purchase of a new mobile port crane.

The Group continues to maintain a satisfactory level of liquid assets sufficient to meet all liabilities as they fall due.

Human resources

The **employee** headcount has increased from 453 employees as at 31 March 2022 to **494** employees as at 31 March 2023. Employee costs have increased by **8%** as compared to the same period in the prior year due to the increase in headcount. The average gross salary per employee amounts to 1,342 euros in quarter 1 of 2023, while the same amounted to 1,203 euros in the prior year.
